About the team

We have two women's and two men's teams playing in the first and second western league. As a club team, its diversity in types of players is high, ranging in age between 19 and 38, as well as in lacrosse experience and athleticism. The women's team currently counts three players who will represent Germany in the 2019 European Championships, while the men's team currently has eight national team players. In the past four years, the first women's team has taken an exceptional development, from almost relegating into second league in 2015 to winning the bronze medal three years later. Last season we seriously challenged the two dominating teams of the past decade in Germany with just an unlucky ending. The first men's team has constantly finished under the Top 4 teams since 2014 with the first place in 2017.
